ABSTRACT

This document presents statistical data concerning Maryland higher education. Emphasis is placed on enrollment data by major field of study and by geographic origin of students; numbers of degrees by major field of study; number of employees in higher education institutions; average salary of faculty members in Maryland institutions; salaries of selected administrative personnel; education and general fund revenue and expenditures by nine functions in Maryland institutions; instructional costs per full-time equivalent students; library collections; number of high school graduates planning to attend college by student's father's education, race of student, student's grade average, and sex; and number of students surveyed in post-high school plans of seniors in Maryland public institutions. FOREWORD

The Maryland Council for Higher Education has the legal responsibility to secure, evaluate, compile and tabulate data, statistics and information dealing with all aspects of higher education. In order to carry out this responsibility, the Council conducts an annual higher education information survey which gathers data on students, faculty, facilities, finance, and programs from all of the higher education institutions in the State of Maryland. This Data Book is a summary of selected information for the 1973-74 academic year tabulated by each major segment of higher education within the public sector -- Community Colleges, State Colleges, and University, and the private sector.

The tables included in this Data Book are intended to be informational and not interpretive; however, the data contained in this report are used by the Council and State officials in assessing the current status of higher education in Maryland and in making recommendations for action for improvement of higher education. The reader should be cautioned that conclusions drawn from comparative data may be misleading, and additional analysis is usually required before differences can be fully understood. The most constructive use of these data is realized not by drawing conclusions from them but by using them as a source for pointing up areas for further detailed investigation and analysis.

The Council wishes to point out that much of the data contained in this publication are being presented in a format which shows both major fields of study and student level. This format is the result of the implementation of a degree program taxonomy structure by the Council, and the classification of degree programs by every higher education institution in the State. The complete inventory of degree programs in the State of Maryland is available from the Council in another publication.

TABLE OF CONTENTS

	Page
STUDENTS	1
Undergraduate Enrollment in Segments of Higher Education in Maryland By Major Field of Study, Fall 1973	3
Full-Time Undergraduate Enrollment in Segments of Higher Education in Maryland, By Geographic Origin of Students, Fall 1973	35
Headcount Undergraduate Enrollment in Segments of Higher Education in Maryland, By Geographic Origin of Students, Fall 1973	36
Graduate Enrollment in Segments of Higher Education in Maryland By Major Field of Study, Fall 1973.	37
Full-Time Graduate Enrollment in Segments of Higher Education in Maryland, By Geographic Origin of Students, Fall 1973	63
Headcount Graduate Enrollment in Segments of Higher Education in Maryland, By Geographic Origin of Students, Fall 1973	64
